Mr William Loyd Garrison.

My Dear Sir.

I am instructed by a committee of the Young Men's Christian Association of this Town to invite you to address this association at any time you may chose during the months of next November, December, January or February. There is a very general desire to hear you, and I am asked my strong personal desire that you may accept our invitation - I believe you have never spoken in this county and we can make it a pleasant time for you, as well as for us. Should you decide to come as I most sincerely hope you will - will you please state in your reply about what time you will prefer to come, and your terms -

Yours most Truly.

W Griswold.
